- 6.6 Manufacturers may please note that the consignment would not be unloaded in the receiving depot if the requirements indicated in paragraphs 6.4 and 6.5 above are not met.
- 6.7 Manufacturers shall ensure that the carton boxes used by them conform to the specifications of the Bureau of Indian Standards and that the boxes do not become a cause for excessive transit and / or depot damages. The Corporation may, if it so warrants, issue necessary guidelines in case of manufacturers who do not use standard boxes, which shall be followed by them.
- 6.8 Manufacturers shall also ensure that they do not overload the lorries transporting their goods. Needless to mention, such overloading is a major cause of excessive transit and depot damages. Any instance of overloading noticed by the Corporation may result in appropriate action as may be necessary.

7. Adherence to Quality

- 7.1 The manufacturer is expected to ensure that the items delivered to the Corporation are fit for human consumption and adheres to the quality as stipulated by the relevant standards of the Bureau of Indian Standards and/or other standards as may be applicable or as desired by Government of Rajasthan. Government of Rajasthan has decided that IMFL, only with ENA as base raw material, would be allowed in Rajasthan. Manufacturers of beer may please note that beer when delivered to the Corporation shall be within 90 days of date / month of bottling. In exceptional cases beer supplied after 90 days may be accepted after recording reasons subject to minimum charges of Rs. 10/- per carton box for first 10 days and afterwards charges will be Re. 1/- per carton box per day. However, the supply of beer, which is 105 days old from the date of its manufacture, would not be accepted by the Corporation.
- 7.2 The Corporation may periodically test samples of such items as it may decide, to ensure that quality standards are adhered to. If an item does not adhere to the quality standards expected of it, sale in respect of that particular batch of the item (if in stock) would be suspended immediately. A communication would be sent to the manufacturer along with the results of tests carried out with a request to withdraw stocks of the particular batch from the depots at his cost. The manufacturer would also be advised to improve the quality to conform to specifications.
- 7.3 All other brands of such manufacturer will also be subjected to examination and the cost of testing these samples would be debited to the manufacturer. If any of these products does not conform to specifications, then such products (brands) would be black listed and the Corporation would stop transacting in the same.

8. Transit Risk and Losses

8.1 It is the responsibility of the manufacturer to deliver stocks at the depots of the Corporation. This includes stacking of the liquor in the depot. Therefore any risk during the transit of liquor from the premises of the supplier till the stocks are unloaded and stacked in the depot shall be borne by the manufacturer, who may, if necessary, seek an insurance cover.

8.2 **Transit losses** would fall in one of the categories described below. Such losses shall be to the account of the manufacturer.

Short Receipt – Receipt of lesser number of items than what is mentioned in the invoice of the manufacturer and/or mentioned in the transport permit would be categorized under this head. Such short receipt would generally be in the nature of missing bottles in carton boxes, though missing of whole carton boxes cannot be ruled out.

Broken Items – Items that are received in broken condition or detected during delivery by RSBCL for further sales or detected during affixation of excise adhesive labels in case of imported items (both from outside the State and from outside the country) would be categorized under this head.

9. **Stocks held for sale**

9.1 The Corporation would take necessary care of the stored stock as is reasonably possible and expected of it.

9.2 Damage to stock held for sale as a result of any negligence of the manufacturer or the transporter, it would be to the account of the manufacturer. More particularly, instances of bottles having hairline cracks resulting in steady evaporation of the contents, quantity filled being less than the declared quantity damage due to weak carton boxes, etc., which are controllable by the manufacturer can not be treated as storage losses attributable to the Corporation. Such or other similar losses whenever detected shall be treated as transit losses and the concerned supplier debited accordingly. Any decision of the Corporation as regards the nature and quantum of such losses shall be final. Manufacturers may, if they so desire, depute their representatives to verify such bottles and satisfy themselves.

9.3 Manufacturers may appreciate that storage space as a resource has to be optimally utilized and slow moving / non-moving stocks of one manufacturer should not result in limiting market access of others. It is therefore necessary that stocks move regularly and non-moving stocks are weeded out. The stocks held by the Corporation would therefore be categorized as under.

Active stocks – Stocks that are up to 60 days old in case of Beer and upto 120 days in case of IMFL / **FMFL** (upto 180 days for Wine, Cider and Brandy only) would be treated as active stocks.

Inactive stock – Stocks that are more than 60 and 120 days old in case of Beer and IMFL/**FMFL** (more than 180 days for Wine, Cider and Brandy only) respectively would be treated as inactive or non-moving stocks.

9.4 Inactive stocks shall be charged a Inactive Stock Penalty of **Rs.3/-** per carton box per day. The Inactive Stock Penalty shall be computed on the basis of carton box days (i.e. one carton box of an inactive item stored for one day is termed as a carton box day and would attract a Inactive Stock Penalty charges of **Rs.3/-** and adjusted against the payments due to the manufacturer. Any tax / levy (e.g. Service Tax) chargeable on inactive stock penalty

with surcharge thereon, if any, will also be recoverable from the manufacturer as per provision in this regard. This penalty will be charged proportionately in case of loose bottle also on the same pattern.

- 9.5 In the beginning of the month, the Corporation would give details of inactive items as at the end of the previous month, with a request to liquidate them within thirty days. If the manufacturer does not take necessary action to liquidate such stocks within the period aforesaid, the Corporation would dispose off the inactive stocks in any manner as may be appropriate and the difference between the price of delivery of liquor and the amount realized shall be borne by the manufacturer. The manufacturer shall not have any further claim against the Corporation in respect of such stocks. In case of any failure of the manufacturer to deposit any RSBCL dues to be recovered from the manufacturer, the stock of manufacturer may also be disposed off in the same manner to recover the dues after giving notice of 15 days.
- 9.5.1 In case manufacturers / suppliers / distilleries make a written request to the Corporation about their intention to withdraw stocks of IMFL from depots for re-processing in view of non-movement, deterioration in quality and packing etc., RSBCL will recommend to the Excise Commissioner to permit the distilleries to take back the stocks for re-processing in the manner to be prescribed by the Excise Department. Corporation margin @ 0.33% plus Inactive Stock Penalty shall be recovered from the supplier in case stock is taken back for reprocessing, just like other stock.
- 9.5.2 If, supplier does not renew the label of their brand and the stock is lying with the Corporation, following actions for disposal of such stock may be taken by the Corporation:
1. Beer & Ready to Drink beverages (IMFL) - It shall be drained out after expiry at the earliest at the depot.
 2. IMFL – Corporation will give reasonable notices to the supplier either to get the brand approved or to take such stock back to distillery. After expiry of one financial year, Corporation will have the right to drain out such stock.

Any dues or expenses incurred by the Corporation in draining out such stock will be recoverable from the supplier.

- 9.6 However, any stock of beer & Ready to Drink beverages (IMFL) lying unsold & expired and declared unfit for human consumption at the depot shall be drained out by the Corporation. Any expenditure incurred by the Corporation towards this shall be recovered from the manufacturer. No compensation shall be payable in respect of such stock. Corporation margin @ 0.33% plus Inactive Stock Penalty (subject to the maximum period of six months from the date / month of bottling in case of drain out) shall be recovered from the supplier in case of such stocks also, just like other stock.
- 9.6.1 In case where such beer is not drained out in the Depot itself, it is further provided that the breweries are allowed to take the old stock of beer back to their factories, which is over six months from the date / month of bottling, and lying with the RSBCL depot, where the same will be drained out under the supervision of Excise Department. The decision with regard to refund / adjustment of Excise Duty on such stocks (taken back to factory) shall be taken by Excise Department as per the provision of Rajasthan Excise Act / Rules. Corporation margin @ 0.33% plus Inactive Stock Penalty shall be recovered from the supplier in case of such stocks also, just like other stock.

10. Inter Depot Transfers

- 10.1 The Corporation shall have the liberty to effect inter depot transfer of stocks for quick and easy disposal. Manufacturers may also request for such transfers, if in their opinion, such transfers would facilitate disposal of stocks. However, the decision of the Corporation in this regard shall be final.
- 10.2 Manufacturers shall bear all expenses towards inter depot transfers. If for any reason, the Corporation expends any amount towards the transfer, like permit fees, such amounts shall be immediately debited to the account of the manufacturer. Transit losses due to the transfer shall be borne by them.
- 10.3 Where any application is presented for issue of Inter Depot Transfer order the supplier shall be required to deposit fee @ **Rs. 3/-** per CB subject to minimum of **Rs. 200/-** per T.O.O. or as decided by MD, RSBCL from time to time. However, as regards extension and cancellation of T.O.O., the fees prescribed for extension / cancellation of OFS, as mentioned in relevant clauses shall be applicable.

11. Payment for stocks sold

- 11.1 The Corporation shall pay the manufacturer only for the stocks sold. Unsold stock shall not be eligible for any payment, except to the extent mentioned in clauses 12 and 13 below.
- 11.2 The amount payable to a manufacturer for the sales provisionally recorded within the week ending every Wednesday shall be computed and credited through RTGS on the following Monday. Any amounts to be recovered from the manufacturer due to Inactive Stock Penalty, interest, etc. shall be recovered out of the amounts payable. The Corporation would provide a statement of provisional sales recorded to facilitate reconciliation. Any missing data due to delays / failures in electronic transfer of data shall be reckoned in the succeeding week and adjusted.
- 11.3 The Corporation prefers to transfer the amounts due to the manufacturer directly to their bank account. To facilitate such transfer, manufacturers may open an account with any one of the bankers to the Corporation.
- 11.4 The Corporation would not be a party to any bill discounting arrangement that the manufacturer may enter into with his bank.
- 11.5 Once in three months, the Corporation would verify unaudited sales data and rework the payment due to the manufacturer. Any adjustment necessary would be made after such verification.
- 11.6 The Corporation would provide an extract of all transactions of manufacturer before the 10th of the succeeding month **on the RSBCL site**.
